WALLDO

WALLDO is a premium architectural partition systems brand developed by MDK Industrial Building Systems.

Specialized in modular office partition systems, frameless glass solutions and aluminum architectural systems, WALLDO combines innovative engineering with contemporary aesthetics to create functional and inspiring workspaces.

With advanced manufacturing capabilities and experienced project teams, we provide customized solutions for offices, corporate headquarters, commercial buildings, hotels and modern interior environments.

Our systems are designed to meet the expectations of architects, designers, contractors and project developers seeking flexibility, minimalism and high quality finishes.

WALLDO

Our Mission

To provide high-quality modular partition systems that enhance modern interiors through engineering precision, contemporary design and customer-focused solutions.

Our Vision

To become a globally recognized architectural systems brand delivering innovative, functional and aesthetically refined workspace solutions.

WALLDO

WHY WALLDO

- Premium Architectural Design
- Modular & Flexible Systems
- Acoustic Performance
- Slim Aluminum Profiles
- Frameless Glass Solutions
- Fast Installation
- Customized Production
- Contemporary Finishes
- Project-Based Solutions
- International Export Capability
